### Director's Bio

Tas Labra, 32yrs old from Australia. He's a character actor who is trying his hand out as a writer/director. He has been overwhelmed with juggling this new challenge whilst working a 9-5 job, and is reaping the rewards ever so slowly.

### Director Quotes

BRAINS' was made to enter the Edinburgh Film Festivals "Walk With Us" competition. The competition set out a theme (which was) 'Walk With Us' and on what it meant to us. They let us roam free with ideas and formats on shooting the project. I scoured around with ideas for weeks until it hit me. Zombies! So I thought zombies are known walkers. My main goal was to make it into a mockumentary and to hopefully make an interesting short story.
