## Director Bio

I work as director and executive producer at REJECT FILMS, for the last 8 years, developing films, internationally recognized shorts, music videos and ads. At the moment I am finishing my first feature; "The bridge". I work as a professor at the Actor's School, teaching cinematographic language, structural narrative and acting direction. I was part of the Young Jury for the "Tenemos que ver" Festival. With the short "Marina", we obtained the 1st place in the "DeTour" film festival. I've participated in the international "PUENTES" workshop, awarded and funded by EAVE, and attended Ventana Sur. I had the opportunity to learn from professionals such as César Charlone, Rodolfo Sayagués, Gustavo Hernández, Fernando Epstein and Cristian Pauls.
